

29 April 2024

**Our Ref: FOI 373**

**Request**

We received your request on 15 April 2024 for the following information:

*Can you please provide the following data for the period 01/04/2023 to 31/03/2024?  
The number of allocations by NIHE local office and common landlord area.  
The mean and median points at the point of allocation by local office and common landlord area.*

Your request has been handled under the Freedom of Information Act 2000 (FOIA).

**Our response**

As advised in our email of 16<sup>th</sup> April, Waiting List and Allocations statistics are included in the Department for Communities Housing Bulletin which is designated as a National Statistic.

Section 13(1) of the Statistics and Registration Services Act 2007 states that 'the person producing any official statistics which are designated under section 12 as National Statistics must ensure that the Code of Practice for Statistics under section 10 continues to be complied with in relation to those statistics.' Provision of the requested figures before publication of the DfC Housing Bulletin in which the dataset from which they would be drawn is published would be a failure to comply with the Code in respect of parts [T3.3 and T3.4](#).

The 01/4/23 to 31/03/24 figures are therefore currently exempt from disclosure under Section 44 of the Freedom of Information Act - disclosure prohibited by other legislation until the Housing Bulletin in which they appear is published. As agreed, we have therefore answered your request using the allocations for the period 01/01/23 to 31/12/23, which is the most up to date figures that can currently be released.

The table below provides data on the number of allocations and average points at the point of allocation at NIHE Local Office and Common Landlord Area (CLA) level for the 1-year

period from 01/01/23 to 31/12/23. The table should be viewed in conjunction with the accompanying notes.

<b>Allocations 01/01/23-31/12/23 at NIHE Local Office &amp; CLA Level by Mean &amp; Median Points on the Waiting List at the point of allocation</b>

#### Notes:

- This response is based on the most recently published data (allocations for the period from 01/01/23 to 31/12/23).
- Allocations data is a rolling 12-month total and includes allocations to both Housing Executive and housing association properties.
- When a question of “average waiting times” or “average points” is asked, MEAN and MEDIAN averages are provided.  
Reasons for this include:  
The MEAN is the arithmetic average and as a statistic can often be unreliable, having been skewed by significant outliers i.e. applicants who have been on the waiting list for a number of years.  
This degree of skewing makes the arithmetic average, the MEAN, unreliable.  
Therefore, following expert advice on this matter a methodology that utilises the MEDIAN (a measure of central tendency) as a more reliable indicator in relation to Waiting Lists and Allocations is also provided.
- UK GDPR and Data Protection Act 2018 - It is important to note the GDPR & Data Protection Act 2018 regarding the potential risk of identifying individuals and individual households. Guidance from NISRA suggests that equality monitoring information should not be disclosed in sensitive cases where individuals or individual households could be identified. Also, the Information Commissioner's Office (ICO) 'Anonymisation: Managing Data Protection Risk' Code of Practice states 'where less than 10 responses have been given to an answer that identifies something factual, all variables relating to that question have been suppressed'. However, 'it should be noted that attitudinal questions are not bound by this rule, in addition to responses of 'Don't know', 'Refused', 'Other' or similar. As the information provided is considered sensitive, some statistical disclosure controls may have been placed on the tables with the omission of data in cases where there are less than ten Applicants.
- Please note in the interests of Data Protection we have had to remove the points for some CLAs where there was less than 10 allocations and where the points were substantially different (we used a deviation of 20%) from the overall N. Ireland mean average.

- <10 are cases where numbers are less than 10.
- \* Totals minus cases where numbers are less than 10.

This concludes our response.
