

Housing
Executive

Social Enterprise Plus **DIRECTORY**

INTRODUCTION

Included in this booklet is a list of social enterprises that were funded through the Housing Executive's Social Enterprise Plus Programme.

Social enterprises are businesses which are set up to change the world. Like traditional businesses they aim to make a profit but it's what they do with their profits that sets them apart – reinvesting or donating them to create positive social change.

These enterprises listed here are based in or serve Housing Executive communities. They are making big difference in our communities by creating new jobs and sustaining existing jobs in the heart of our estates. They are providing training opportunities to help people improve life skills.

They provide excellent services in our communities from cafés, handymen services, indoor play areas, health and fitness centres, tourism enterprises, and a water bottling plant to mention a few. Have a look and see what is in your area, give them a try and support your local community.

Thank You

Housing Executive Social Enterprise Team
