

## Properties currently registered as a Home in Multiple Occupation

**Under the freedom of information act I would like a list of all property's in Northern Ireland currently registered as an HMO (Home in Multiple Occupation). I also require the contact details of those making the application to the afore mentioned property's.**

The Housing Executive no longer holds HMO information. From 1st April 2019 the legal responsibility for Houses in Multiple Occupation (HMO) regulation transferred from the Housing Executive to local councils.
