

Homelessness - Ukraine

1. Please could you share a spreadsheet containing the following information on homelessness in Local Government Districts for people from Ukraine who hold a visa on the Ukraine Family Scheme or individual sponsorship scheme, as well as people who have arrived from Ukraine via Ireland:
 - Name of Local Government District
 - Local Government District code
 - Number of people from Ukraine assessed as homeless or threatened with homelessness
 - Number of people from Ukraine living in temporary accommodation
 - Number of people from Ukraine on a housing waiting list

If possible, I would like to know these figures as of the following dates:

- 3 June 2022
- 1 July 2022
- 29 July 2022
- as well as the most recent figures you have.

Please find Excel spreadsheets below detailing the information held by the Housing Executive in regard to your request.

In providing the data, as applications can include persons from different families, individual rather than household data is provided which includes children under the age of 18. The data is also cumulative across the period requested, and therefore individuals who have been counted at 01 July 2022, will also be counted across all subsequent dates.

Homelessness by LGD for individuals from Ukraine
