

# Minor Adaptations in Social Housing

## Accessing these agreed adaptations

### Minor adaptations included in the select list can be processed in the following ways:

- Tenants/Service Users approaching HSC Trusts for provision of these listed adaptations will be signposted to their social landlord for direct provision without OT involvement.
- Other HSC professionals approaching the OT Service for provision of these listed adaptations will be signposted to the social landlord.
- Social Housing tenants can directly contact the maintenance department of their social housing provider to request provision of the adaptations.
- Occupational Therapists can continue to identify and recommend provision of listed adaptations as part of their overall assessment.

It is important to note that completion of any adaptations will be subject to technical feasibility and reasonableness of provision as determined by the social landlord.

Some adaptations do not need a recommendation from an Occupational Therapist (OT).

# Select Adaptations list

## Adaptations that do not require an Occupational Therapist (OT) recommendation

This is an agreed universal list of minor adaptations that can be provided by the social landlord without an OT recommendation.

Should the housing provider identify potential health and safety issues requiring professional assessment an OT recommendation may be sought at their discretion. However the provider must ensure that any such referrals are reasonable and justified so as not to create unnecessary delays for the client waiting for adaptations.

**Handrail (external)**

**Lights (external)**

**Grab-rails (internal)**

## Housing Executive and Housing Association properties - adaptations that do not require an OT referral

<b>Clothes line</b>	Rotary clothes line provision including path leading to clothes line where appropriate.
