Foreword

Welcome to the Northern Ireland Housing Executive's Housing Investment Plan, which reports on progress made over the past twelve months and sets out our ambitions for the coming year.

- While the external environment in which we operate remains challenging, the majority of last year's targets have been met, or exceeded. NIHE has invested more in our tenants' homes, over the past 12 months, than in any of the previous 15 years. This demonstrates our commitment to improving the health and well-being of our tenants by keeping their homes safe, warm and dry.
- In partnership with housing associations, through the Social Housing Development Programme, we facilitated 1,956 new build social housing starts across Northern Ireland.
- We expanded our Financial Inclusion Service to ensure as many tenants as possible had access to the right kind of financial advice.
- We made significant progress in implementing our Sustainable Development Strategy; growing the number of homes benefitting from retrofitting, and expanding our tree planting programme to improve climate adaptation across Northern Ireland.

This Housing Investment Plan demonstrates how we are working as a partner to deliver Community Plans. We continue to engage with Community Planning partners to deliver housing outcomes. The plans also reflect the objectives set out in our own Corporate Strategy:

- A significant shift towards sustainable development – locking us on a path to decarbonising our homes and protecting our assets and our tenants;
- Putting us in a position where we can borrow to build and to invest – and building our capacity to do so;
- Extracting social value from our spending power – delivering local inclusive economic development, by investing in skills and supply chains;

- Much greater involvement of customers in decisions and services that affect their lives and a strategic focus on alleviating the impact of the rising cost of living;
- A strategic shift towards prevention of homelessness and urgent re-housing for those experiencing homelessness; and
- Being a delivery partner for all of government – towards the reduction of economic inactivity, delivery of green growth and early intervention to improve lives.

NIHE takes its responsibilities as a Community Planning Partner very seriously. Delivery of our housing objectives is key to the social, economic and environmental benefits of each council area. I am grateful for the partnerships which we have built with councils across Northern Ireland, and look forward to working together as we deliver against our shared goal of providing better places to live for the people and communities we serve.

Grainia Long
CHIEF EXECUTIVE

Introduction

Welcome to the new 'Housing Investment Plan 2023-2026'. The Housing Executive is statutorily required under the 1981 Housing Order to report to Councils on its past year's performance (2022/23) and next year's proposals (2023/24). The Housing Investment Plan 2023-2026 however will look ahead to the next 3 years and is aligned to the [3 year Corporate Strategy](#) (2022/23 -2024/25) and its associated set of strategic priorities, which commit the Housing Executive to:

- Working with our partners to increase social housing supply to help meet identified need and building our capacity to borrow, invest in our stock and add to new supply
- Helping NI meet its emissions targets, address the impact of climate change and help sustain and protect our environment for future generations
- Investing an estimated £1,700m (over the next 3 years) into our local economy, through our housing services, construction activity, employment opportunities and through our support for the health, voluntary and community sectors, while also processing circa £1,148m in Housing Benefit payments across public and private housing tenures over the same period
- Working with our partners to deliver innovative housing solutions for our customers and to help reduce poverty and improve Health & Wellbeing
- Involving our customers to ensure that they are at the heart of service improvements and our business delivery mode
- Being an employer of choice and delivering high quality services for all in Northern Ireland's increasingly diverse community

The Housing Investment Plan is also aligned to the outcomes of each Council's Community Plan to show how our work supports the delivery of the plan's objectives. We look forward to continuing to contribute to shaping the future of housing in each council area with our Community Planning partners.

Part 1 below is the Strategic Context, focusing on achievements during the 2022/23 business year in respect of the Housing Executive's suite of Strategies, Programmes and Action Plans as the Strategic Housing Authority for Northern Ireland and a landlord at scale. The Strategic Context will also include links to relevant documents and related additional reference material. Part 2 sets out the local context and outcomes tables of locally specific Housing Executive performance against Council's Community Planning objectives.

Overview

When writing the HIP, we have taken account of the wider strategic context, including:

The Communities Minister’s November 2020 statement on housing reform and plans to revitalise the Housing Executive

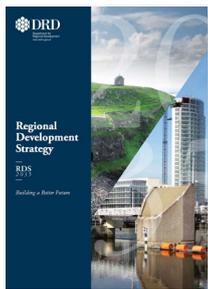

New Decade New Approach

The consultation on the Programme for Government Draft Outcomes Framework 2021

The Sustainable Development Strategy

The Regional Development Strategy

The Housing Supply Strategy

Strategic Planning Policy Statement

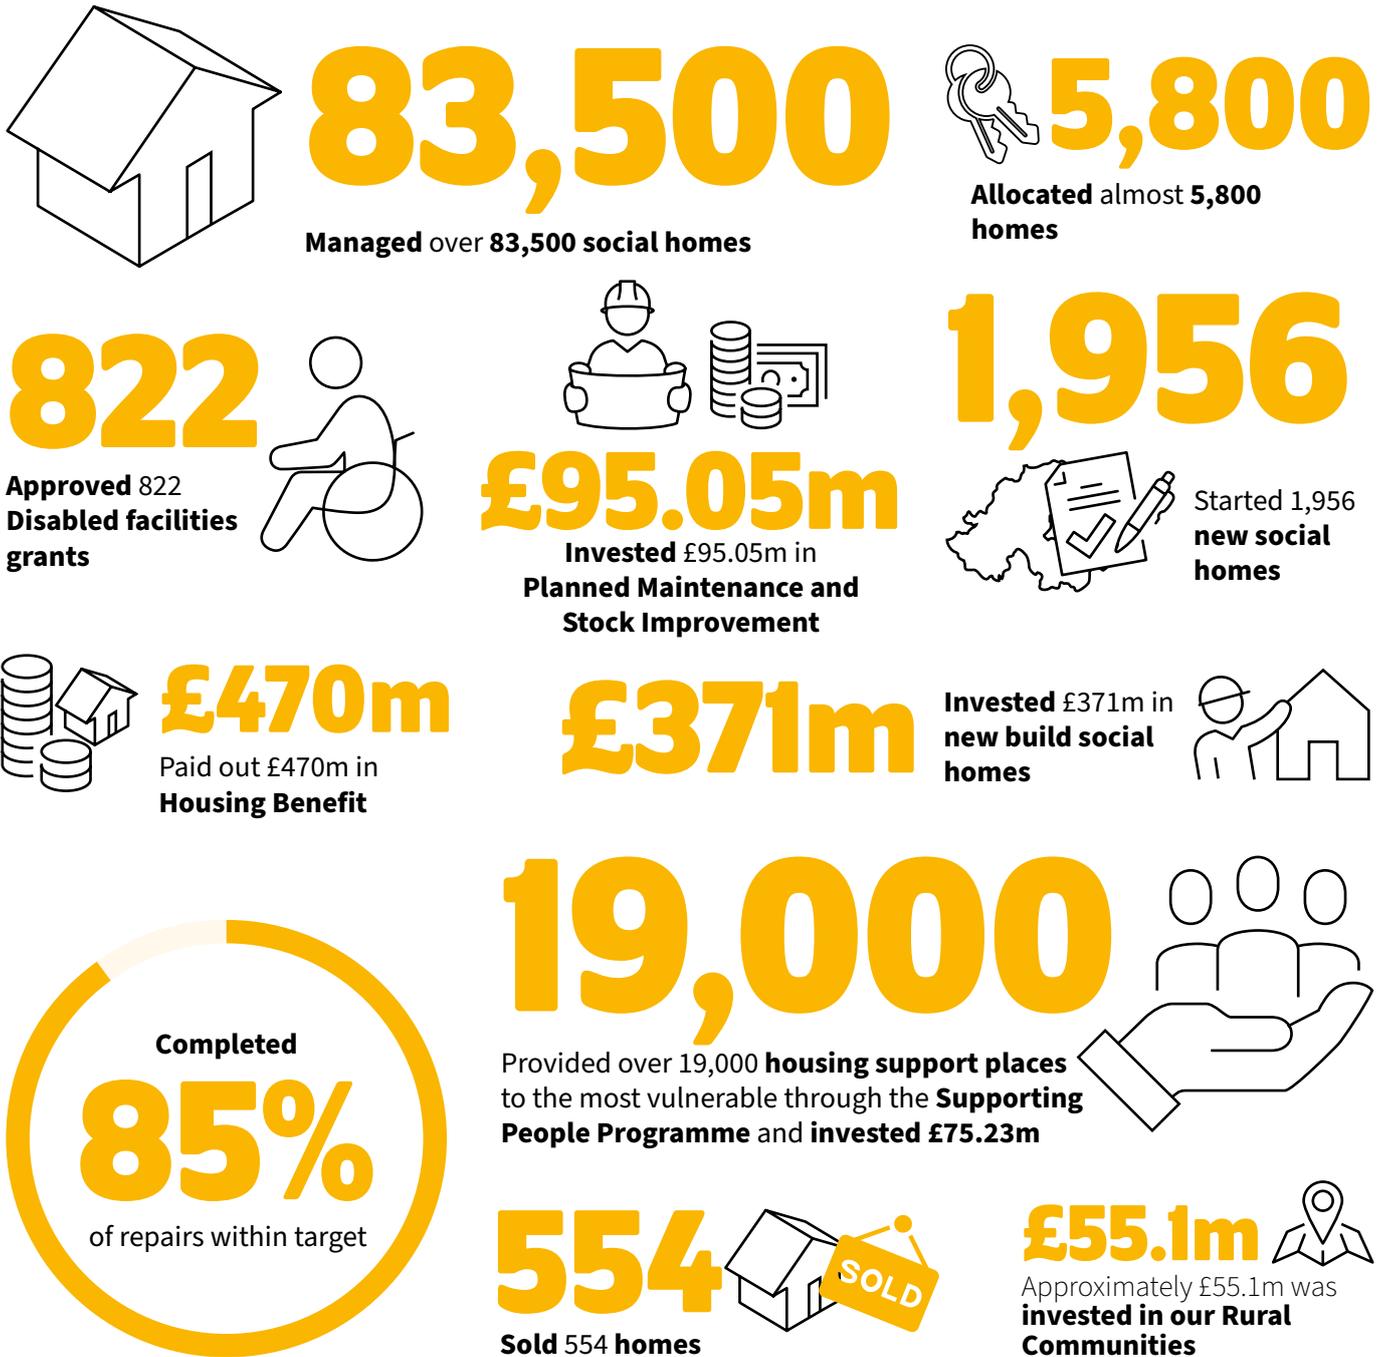

The emerging suite of new Local Development Plans

In addition, the broader context of post-Covid recovery, environmental and climate risks, Economic challenges associated with market uncertainty and increased household costs are all important factors for planning for the future.

In this context, we have set out our plans to ensure that we address the challenges and maximise the opportunities open to us over the coming years. In the sections below, we have highlighted some of these key themes and their implications for the Housing Executive.

Across **Northern Ireland in 2022/23**, the Housing Executive achieved a significant amount as summarised below.

Part 1 - Strategic Context

The Housing Investment Plan 2023-2026 has not been developed or delivered in a policy vacuum; it sits alongside a range of interrelated strategies and programmes which impact on the daily lives of the Housing Executive's customers and tenants. Underpinning much of the work that the Housing Executive do are the key themes of Revitalisation and Sustainable Development, as well as all the measures and interventions at a local level that are firmly focused on the needs of our customers and providing high quality public services, in achieving positive housing outcomes across Northern Ireland. Also in this section, aligning with the Corporate and Business Plan, we present our strategies and key programmes of work that have been progressed over the last year under the six strategic priorities. This work has impacted across the community and the environment and continues to inform the work of the Community Planning Partnerships.

Housing Executive Revitalisation

Following commitments in New Decade New Approach and in the Minister for Communities statement in November 2020, the Housing Executive continues to work with the Department for Communities (DfC) in progressing the Revitalisation Programme, which will consider and assess options to meet the investment challenge through a revitalised strategic housing authority and a sustainable social landlord that can maintain and provide good quality and affordable social homes for current tenants and future generations.

An informal board briefing presentation on Revitalisation took place on 14th December 2022 outlining the case for change and the key elements of the Outline Business Case. Further presentations will be made as work is progressed.

The current situation is that the Minister provided a written update on

progress with the Outline Business Case on the 21st October providing the following detail:

- A commitment that the Housing Executive will not be privatised;
- An assurance that consideration will be given only to options that limit change and which ensure that the Housing Executive remains dedicated to the essential public service of social housing as it has done so successfully for the past 50 years; and
- The ideal option as always is one in which the Housing Executive strengthens its role as the Strategic Housing Authority and, as a public housing landlord, has access to borrowing.

Discussions are ongoing between DfC and the Housing Executive on next steps.

Sustainable Development

The work of the Housing Executive has long been associated with sustainable practices and continues to endeavour to make a difference to help to sustain the environment for future generations. The key focus is on improving the lives of the people in our communities and making the planet a better place, which aligns with our Strategic Vision of Making a Difference. Our work ranges from providing land for community allotments and gardens, planting of open spaces, to energy efficiency interventions for Housing Executive stock and reporting on home energy conservation across the residential sector.

During 2022, the Housing Executive achieved Platinum in the Business in the Community NI (BITC) Environmental Benchmarking Survey. In conjunction with BITC, the Housing Executive have signed up to the Climate Action Pledge, by signing this Pledge we have committed to reduce our absolute scope 1 and scope 2 Greenhouse Gas (GHG) emissions by either 30% by 2030; and to work towards measuring and reporting our scope 3 GHG emissions.

Emerging issues Impacting on Housing

Supply

After two years of decline, the number of new dwellings started in 2021-22 stood at 7,400, which is still some way off the 2018-19 high of 8,400. A similar pattern emerges in completions: in 2021-22, 7,300 dwellings were completed, and although higher than the previous year, still lower than the number of new dwellings completed in 2018-19 (7,800). In 2022/23, there were just over 6,400 completions.

Rents

Taking a longer term view on rental levels, rents have increased by almost 50% from 2015 to date, and the number of properties available to rent has decreased by around 50% over the same period. The rent charged for new properties to let continues to increase – the average monthly rent across the Belfast City Council Area (BCCA) increased by 12.7% annually to £875, whilst outside of Belfast, the average Local Government District rent was up by 7.2% over the year period to £708 per month.

Undoubtedly the wider economic environment has impacted on affordability issues for households in Northern Ireland. In turn, these affordability issues coupled with the economic conditions impacts on housing supply.

Cost of living

Northern Ireland has the UK's highest proportion of low paid jobs (almost one in five), the lowest discretionary disposable income, and local households spend disproportionately higher amounts of their income on energy, food and fuel relative to the rest of the country, so the country is particularly impacted by the cost of living crisis. Useful link: [Cost of Living | nidirect](#)

Construction industry & Labour market

Pressures are apparent within the construction industry. The CEFNI survey found that 50% experienced a worsening in profit margins since 2021, and looking forward into 2023, the 4 main challenges were reported to be:

increased cost of materials, Inflation, access to skilled labour and political uncertainty / no functioning Executive.

The labour market in Northern Ireland recovered relatively quickly from the pandemic and 2022 saw the lowest unemployment rate in the Labour Force Series to date. Further analysis shows however that there has been a slump in self-employment, down one quarter on where it was pre-pandemic, and conversely that there has been an increase in employees. The number of weekly hours that an average full-time worker works is still less than those pre-pandemic. Vacancies remain stubbornly high, with double the jobs being advertised than pre-pandemic.

House prices

Over the past year, the housing market has showed strong resilience in terms of pricing levels, however, the first quarter of 2023 recorded the first marginal quarter-on-quarter decline in pricing levels in just over 2 years. This was accompanied by reduced transactional activity. The average price of a dwelling in Northern Ireland in Q1 2023 was £203,326, an annual increase 2.2% from Q1 2022, but a 0.7% decline from Q4 2022. Continuing desire for home ownership will be tempered by ongoing economic conditions.

Inflation & Interest rates

The surge in inflation resulted in a 41 year high figure of 11.1% in October 2022. By March 2023 the Consumer Prices Index (CPI) decreased slightly to 10.1%, but despite this drop, CPI inflation remains stubbornly high, particularly for necessities such as food and non-alcoholic beverages. After an extended period of abnormally low interest rates between 2009 and early 2022, the Bank of England base rate has risen steadily over the last year. By March 2023, the interest rate stood at 4.25% and some commentators expect that gradual increases will continue during 2023 in an effort to control inflation.

Relationship with our Customers

The Housing Executive is a trusted organisation, with strong relationships with our customers, at the most local level. Delivering our vision will require continued strengthening of these relationships, particularly following a period of remote service delivery due to restrictions imposed due to COVID-19. Over this plan period we look forward to more face to face

contact with customers, and making our services as seamless and easy to access as possible. We are constantly seeking to build new, and further develop existing relationships with organisations who advocate, champion or support customers.

For our tenants the Housing Community Network (HCN) is fundamental structure through which the Housing Executive maintains positive engagement and involvement with tenants and community representatives through approximately 300 community groups at a community-based level, in both rural and urban locations across Northern Ireland. The Central Housing Forum sits at the top of the HCN pyramid structure and has a recognised and meaningful role in the monitoring and decision-making process of the Housing Executive and influences decisions affecting tenants and communities all over Northern Ireland. Supporting Communities organises this network and acts as a secretariat to the various forums. However we intend to go further and create a more central role for tenants and customers in NIHE governance. It will result in an approach to service design and delivery based on partnership or co-production, whereby we design our systems and services with rather than onto our customers.

<p>Fundamental Review of Allocations (FRA)</p>	<p>The Housing Executive has set up a Project to implement changes to the Housing Selection Scheme and social housing allocation process in Northern Ireland. The Project involves the implementation of 18 Proposals for Change which were agreed following the Department for Communities’ Fundamental Review of Allocations. The Project will also carry out further work to bring forward alternative approaches for the remaining two:</p> <ul style="list-style-type: none"> • Proposal 7 - the removal of Intimidation Points from the Housing Selection Scheme; and • Proposal 9 - the removal of Interim Accommodation Points. <p>Subject to funding the changes are being be delivered over a three year period in four key stages set out in the indicative timeline below. The implementation of these changes aims to ensure that our highly valued allocations scheme is modernised and continues to provide a robust framework for the assessment and allocations of social housing in Northern Ireland, building on the strengths of the existing Scheme to enable it to work better at responding to objective housing need.</p> <p>Some changes will have a visible impact on customers while others will be less customer facing, e.g. Proposals 12-14 relate to social landlords’ discretion in terms of difficult-to-let properties which will allow landlords to make best use of their stock. Several proposals involve changes to existing systems, new IT solutions and delivery of a Customer Applicant Portal.</p> <p>The Project stages and delivery of the proposals have been grouped based on a number of key factors:</p> <ul style="list-style-type: none"> - Linked to customer/Waiting List impacts; - Due to systems or procedural changes required; - Or for good project management purposes in terms of the most effective delivery method. <p>A number of proposals are interdependent and must be implemented together e.g. proposals 5 and 15 related to areas of choice and offers which have been delivered in the first stage of implementation.</p> <p>Stage One</p> <p>The first group of changes were delivered in Stage One of the Project with the new rules coming into effect on 30th January 2023.</p>	<p>FRA report</p> <p>More information on the Fundamental Review of Allocations Implementation Project can be found on the Housing Executive’s website at: The Housing Executive - Apply for a home (nihe.gov.uk)</p>

The number of Reasonable Offers which an Applicant can receive has reduced from three reasonable offers to two reasonable offers.</p> <p>Proposal 16: Social landlords may withdraw an offer of accommodation in specified circumstances.</p> <p>The other proposals for change will be implemented via a further three delivery stages. More information can be found on Housing Executive’s website.</p> <p>Areas of the Project which will have a visible impact on customers include a reassessment of all applicants on the Waiting List to ensure their housing needs points reflect their current housing circumstances under Proposal 8 and the alignment of the age criteria for children sharing with DWP criteria for help with housing Costs (Proposal 11). This exercise is planned during Stage 3 of the Project in 2024. The changes identified during reassessment will be implemented in the final phase of the project in Stage 4, alongside the introduction of a banding system. Applicants will be placed into bands based on their current point’s levels alongside others with similar levels of need. Applicants in each band will then be ranked based on their time on the Waiting List using their date of application. The introduction of banding, under proposal 10, is linked to high level Outcome 4 - Those in greatest housing need receive priority, with recognition of their time in need.</p>

New Shared Housing Scheme Opens

The official opening of a new shared housing scheme on the Belfast Road, Newry took place on Friday 21 April 2023. Councillor Michael Savage, chairperson of Newry, Mourne and Down District Council, Harry Maher, Department of Communities and Christine Davies from the Housing Executive all attended the grand opening.

This Arbour Housing Association scheme consists of 21 one and two bedroom Category 1 / general needs apartments with one wheelchair accessible apartment. The new shared development and surrounding communities will benefit from good relations funding, which will be used to develop a five year good relations plan. Shared housing schemes are social housing developments, which are open to everyone, regardless of race, religion or community background.

The Good Relations Plan will be developed through a local Advisory Group and managed by Arbour Housing Association. It will include 'bonding' programmes which are delivered to the new shared neighbourhood residents and 'bridging' programmes which are delivered between the new shared residents and residents from surrounding communities.

Feedback from tenants has been very positive. Over the next five years Arbour Association will provide education workshops, training opportunities and events for the tenants to engage with the local community within a five mile radius of the scheme.

Our newly-appointed Good Relations Officer, Edel Curran, will be instrumental in playing a key role with Housing Association partners in further developing Good Relations Projects across South Down.

Young soccer players on the ball

With the support of a £5,000 Community Cohesion grant from the Housing Executive scores of Co Down schoolchildren were able to take part in a special four day international soccer coaching camp held at St Patrick's Primary School, Maghera, and Shimna Integrated College, Newcastle.

The event was a Community Trust Partnership between hosts Newcastle FC and Stoke City FC with support from the Housing Executive. The organisers hope that this will be the first of a number of soccer camps delivered by highly experienced international Stoke City FC coaches, supported by Newcastle FC coaches. Newcastle FC's vision is to get as many local children playing football in a supportive environment as possible, allowing them to flourish.

The project also included Kick It Out sessions to help with good relations, looking at issues such as 'What are Good Relations', 'What is Racism?' and 'What is Sectarianism?'. In addition, the coaches provided a seminar, with topics including Academy philosophy, managing players with different levels of ability, and maximising player development as well as facilitating a Q&A session.

Liam Gunn, Area Manager, added 'We were delighted to support this excellent project through our Community Cohesion Fund. Community Cohesion involves developing strong, positive relationships between people from different backgrounds in the workplace, in schools and within neighbourhoods – and this event is a fine example of that'.

Social Housing Waiting List Trends

The requirement for new social housing in Newry, Mourne and Down has increased between 2022 and 2023.

The **five-year assessment** for 2022-27 shows a need for 2,181 units in the Council area. Refer to Appendix 2, which shows that the projected housing need is concentrated in Newry City, Newcastle, Warrenpoint and Downpatrick

2,181
projected housing need

To address social need, the Housing Executive’s three-year Social Housing Development Programme (SHDP) has 237 housing units planned for 2023/24 to 2025/26.

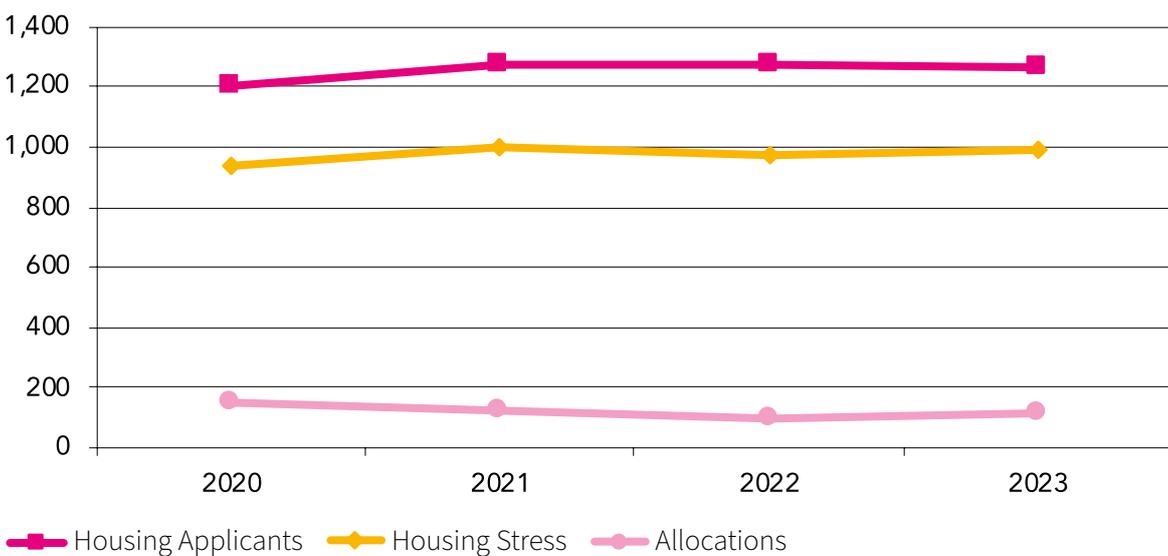

During 2022/23, 51 homes were completed across Newry, Mourne and Down District Council area and 631 units were under construction at end of March 2023. See Appendix 3 for details of the programme, completions and on-site schemes.

Rural Areas

House and land prices, land availability and rates of development may make the first steps into owner occupation more difficult for many young rural households within the Newry, Mourne and Down District Council area. The tendency for owner occupation in rural areas will also result in limited opportunity for the private rented sector to offer affordable accommodation due to a more competitive housing market.

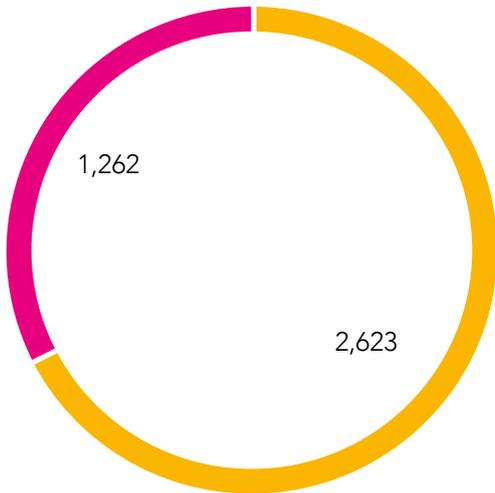

The Housing Executive will continue to work with rural communities to identify hidden or 'latent' housing need through rural housing needs tests. These rural locations will be determined following the annual review of the Housing Need Assessment and consideration is also given to requests from community representatives. During 2022/23, a successful rural housing needs test took place in Leitrim and we are currently working with Housing Associations on the identification of a suitable site to take forward a small scheme. Site Identification Studies were completed for Bessbrook, Forkhill, Rostrevor and Warrenpoint over the past year and passed to Housing Associations for action.

Community Planning

In April 2017, 'Living Well Together', the first Community Plan for Newry, Mourne and Down was launched by Newry, Mourne and Down District Council, statutory partners and stakeholders. The Plan represents a vision of how public services can be better planned and delivered, and is focused around five key outcomes to be achieved by 2030. These five key outcomes are focused on ensuring that everyone has a good start in life and an opportunity to fulfil their lifelong potential; enjoy good health and wellbeing; benefit from prosperous communities; enjoy a clean, good quality and sustainable environment and live in respectful, safe and vibrant communities.

As a statutory partner in the Community Planning process, Housing Executive Place Shaping staff attend quarterly Strategic Partnership Board meetings. We also take a lead role on the Community Planning priority 'Access to Quality Housing' and chair the Housing Needs Working Group.

Following Housing Conferences in 2019 and 2021, a Housing Action Plan was developed for the district, which focuses on addressing the key housing issues identified by stakeholders. During 2022/23, the Housing Needs Working Group carried out a review of the progress of each of the 12 actions and have drafted an updated plan which will detail achievements to date, highlight emerging issues and identify new actions and priorities. This plan due to be published and launched during 2023/24, will discuss issues such as promoting town/city living, addressing housing need in rural areas, targeting homelessness, and ensuring appropriate provision of those with complex housing requirements.

Closely aligned to this, the Housing Executive takes a lead role in the ongoing housing led regeneration project at the site of the former North Street flats in Newry. While at an early stage, we are exploring options with partners for a mixed use development that will aim to contribute to the regeneration of the City Centre.

During 2022/23, Newry, Mourne and Down council have commenced a review of the Community Plan and have carried out extensive consultation both with statutory consultees through focused workshops and the public via the SpeakNMD online platform. A number of key recommendations have been identified which will be discussed and agreed with the Strategic Partnership Board. The Housing Executive will continue to engage in this process.

The HIP themes have been developed to also complement Community Planning themes. Therefore, within this document our housing actions are aligned against outcomes within the Community Plan (see Appendix 1).

Local Development Plan

Work has commenced on the Newry, Mourne and Down Local Development Plan (LDP). The LDP is produced in two stages – the first being the Plan Strategy followed by the Local Policies Plan. The plan will be used to inform decisions through its policy framework and land use proposals guiding these development decisions within the District up to 2035.

The Council published the Preferred Options Paper May 2018 and the draft Plan Strategy (dPS) setting out the terms of the proposed broad aims, objectives and the overall future growth strategy and associated generic planning policies applicable across the district is currently being devised.

The Local Policies Plan, prepared after the Plan Strategy is adopted, will contain site specific designations.

Once both documents of the LDP are adopted, the final and adopted LDP will replace the extant development plans for the council area (previously produced by the Department of the Environment) including the Ards and Down Area Plan 2015 and the Banbridge, Newry and Mourne Area Plan 2015 insofar as they relate to the district.

As the statutory development plan, the LDP is the main policy vehicle to influence housing in the district for 15 years. It is therefore appropriate that the Community Plan and Housing Investment Plan (HIP) are considered in the preparation of the LDP.

The LDP will address the amount of land needed for housing across the district, in addition to setting out housing policy and objectives. When ratified, the LDP will be the statutory document for assessing future planning applications for housing.

Development of Private Rented Sector Access Scheme (PRSAS)			
There is currently no budget availability in 2022/23 for a PRSAS as the homeless budget is already short of funding on a number of key priority areas. Funding has been supplied to a number of small initiatives that facilitate those accessing accommodation in the private rented sector. However there has not been sufficient budget availability to commission the development of larger scale PRSAS.
