

30 July 2025

Dear Applicant

Our Ref: FOI 867

Your request for information received on 23 July 2025 has been handled under the Freedom of Information Act 2000 (FOIA).

Request

NIHE allocations data for the 24/25 financial year.

Our response

Further to your clarification of 24th July in which you provided confirmation of the format in which you wish to receive the 2024/25 allocations data, please see below tables which provide the 2024/25 figures in the same format that you have previously been provided for other years data.

Table 1 (Allocations from 01/04/24 to 31/03/25 at Housing Executive Local Office & Common Landlord Area (CLA) level by Mean & Median Points at the Point of Allocation and Mean & Median Months on the Waiting List at the Point of Allocation) on the following pages should be read in conjunction with the notes below:

- Allocations are aggregated over a 1-year period from 01/04/2024 to 31/03/2025 and include allocations to both Housing Executive and housing association properties.
- When a question of “average waiting times” or “average points” is asked, MEAN and MEDIAN averages are provided.

Reasons for this include:

The MEAN (arithmetic average) is useful for understanding overall trends but can be heavily skewed by outliers (unusually high or low values) – for example, applicants who have been on the waiting list for a number of years or who have just joined the waiting list.

The MEDIAN (middle value, a measure of central tendency) is less affected by outliers and represents a “typical” case better when the data is skewed.

By presenting both, we ensure that the analysis captures both central tendency and the potential impact of unusually high or low values.

We also note that when the number of applicants is small, statistical indicators become less reliable and have a much lower predictive value regarding the “typical” experience. In such cases, the figures may be more indicative of the specific circumstances of the individual applicant households rather than a broader trend. Caution must be exercised when interpreting the results.

- Where the number of allocations is less than 10, the figure has been shown as <10 in accordance with Data Protection and UK GDPR requirements.
- *Totals minus cases where the number of allocations is less than 10.
- Further in the interest of Data Protection we have had to remove the points for some categories where there was only one allocation or less than 10 allocations and where the points were substantially different (we used a deviation of 20%) from the overall N. Ireland mean average points.

Table 1 – Allocations 01/04/24-31/03/25 from the Social Housing Waiting List at NIHE Local Office & CLA Level by Mean & Median Points on the Waiting List at the point of allocation

Table 2 (Social Housing Waiting List as at 31/03/25 at Housing Executive Local Office and Common Landlord Area (CLA) by Mean & Median Points and Mean & Median Months on the Waiting List) on the following pages should be read in conjunction with the notes below:

- Waiting List data is a snapshot of the waiting list as it was on the last day of the specified quarter, in this case 31/03/2025.
- When a question of “average waiting times” or “average points” is asked, MEAN and MEDIAN averages are provided.

Reasons for this include:

The MEAN (arithmetic average) is useful for understanding overall trends but can be heavily skewed by outliers (unusually high or low values) – for example, applicants who have been on the waiting list for a number of years or who have just joined the waiting list.

The MEDIAN (middle value, a measure of central tendency) is less affected by outliers and represents a “typical” case better when the data is skewed.

By presenting both, we ensure that the analysis captures both central tendency and the potential impact of unusually high or low values.

We also note that when the number of applicants is small, statistical indicators become less reliable and have a much lower predictive value regarding the “typical” experience. In such cases, the figures may be more indicative of the specific circumstances of the individual applicant households rather than a broader trend. Caution must be exercised when interpreting the results.

- Where the number of applicant households is less than 10, the figure has been shown as <10 in accordance with Data Protection and UK GDPR requirements.
- *Totals minus cases where the number of applicant households is less than 10.
- Further in the interest of Data Protection we have had to remove the points for some categories where there was only one household or less than 10 households and where the points were substantially different (we used a deviation of 20%) from the overall N. Ireland mean average points.
