## NIHE Construction Drawings/Information

1. I am trying to ascertain when a house was built please. It's on Clonbeg Drive, Newtownabbey, BT37 9BU and since it's a former Housing Executive property, I wondered whether you have information from that time on file that you can share with me. I found out that the build started in 1953 and completed in the 60's. You might possibly also have construction drawings for the houses or a site plan on file, specifically again for Clonbeg Drive. It would be really interesting to see the phases of how the Rathcoole Estate was built, where the development started etc. Besides that, the construction of the houses are very interesting so if you have information about that it would be most welcome.

### Response

NIHE data indicates that the properties in Clonbeg Drive in Rathcoole were built in 1953 & 1954 and are conventional cavity wall constructed properties. Given that the construction of these properties and the Rathcoole Estate considerably pre-dates the establishment of NIHE, we do not hold the original construction drawings, site plans, development/phasing plans etc. that could be made available.
