Information regarding people placed in holiday lets.

- 1. Please provide information on how many people have been placed in holiday lets by council departments/bodies working on behalf of the council eg. social services, housing associations, etc**

The Housing Executive have statutory responsibility for homelessness within Northern Ireland. The Housing Executive does avail of non-standard accommodation (B&B/Hotel) as short term emergency accommodation when standard options are not immediately available.

In doing so, the Housing Executive does not, however, enquire of providers how they have used their property (i.e. if it is used as a holiday let or Hotel/B&B). I can confirm therefore that the Housing Executive does not hold data on holiday lettings as requested.
