

December 2022

Rathcoole Partial Roof Collapse

Request

Design drawings for the two Blocks of Flats at Knocksallagh Green, Green Island, any information that might be available that would be of assistance to informing the assessment of structure. If the organisation that produced the design can be identified they may have the design on record and I can follow up on any leads that you may be able to turn up.

Response

I can confirm that NIHE would hold no drawings for these flats as they predate any records we would possibly have as they were built back in the 1950s.
