## **Refuse Disposal during industrial disputes**

- 1. What I want to know is regarding the manager of the "Lisburn Office" has he got a plan "B" when industrial disputes happen after many complaints a letter was put up regarding this problem (Not good enough). This problem needs to be looked at so as a plan can be put in place under "Health and Safety" as a resident I would like the bins in all "High-rise Flats" to be given priority when industrial action ends to be the first to be emptied so I ask what is plan "B"**

Housing Executive has now completed its search for the information and can advise that the Housing Executive does not hold this information as a 'specific plan B' regarding the emptying of bins in the case of industrial action does not exist in our records.

However I would advise you while the aforementioned industrial action has finished the emptying of bins will always remain the responsibility of Lisburn City Council as they are tasked with waste management. However we would review and investigate on a case by case basis if such a matter arose again.
